Construction details of the container Type: 16274-1,0

Container Type: 16274-1,0

The variant of the waste metal container Type: 16274 is based on the standard version:

- All-metal, 100% recyclable container
- Guaranteed load capacity of 600 kg, rated capacity 2.5 m³
- Door lockable for padlock
- High corrosion protection made of zinc plated steel, subsequently varnished 60 microns, shade on request
- Space for large stickers

In addition, it is adapted:

- Reinforced bottom to increase load capacity
- Inner hanger lugs to hang the inner big bag
